EXTRACURRICULAR ACTIVITY

Took part and won a prize in the Olympiad and test in financial literacy. I took part in a joint project of the all-Russian public organization «Business Russia» and the Russian historical society (V All-Russian Olympiad on the History of Russian Entrepreneurship): March, 2019. I took part in competition of term papers «Science Plus»: December, 2020. Participated in HSE Research and Development Competition: September-December, 2020. Experience in participating in the All-Russian Olympiad in Economics (prize at the municipal level). Participation in research projects and conferences in the English language on the basis of the OSU of Orenburg. Participation in the All-Russian Internet Olympiad in English. I am the winner of the inter-regional Olympiad in French, the prize-winner of the municipal stage of VOSH in the French.

SOCIAL LIFE

Active social and volunteer activities (availability of letters from HSE Volunteer Center). Volunteer at the Higher Test in Social Studies and Journalism from the Higher School of Economics (February, 2019).

INTERESTS

Gaining knowledge in the financial system. Expanding skills in the field of financial markets and solving case problems.

UNIVERSITY & RESEARCH

Participation and defense of the analysis of financial reporting project. 2019. Defense was successful (rating: 9/10). During the project, our university team analyzed the financial statements of the Russian company Lenta and its competitors in the retail sector. Throughout the careful work, my activities included compilation of a vertical analysis of reporting and the identification of features and disadvantages of the financial component of the company. Our team calculated investment and financial ratios.

Participation in the NSD Progress conference (February - April, 2020): «Prospects for the development of the Russian financial market infrastructure». Sub-topic: «Analysis of the popularity of investments and fintech among startups and techies» (rating: 9/10). In March-May 2020 participated in MOEX Progress Project: Development of the Russian financial market. The theme was «Disclosed vs anonymous models of FX trading: how it works in the world and in Russia, which model is the nearest future» (rating: 10/10). Participating in P&G CEO Challenge 2021, Case Championship.
